CERTIFICATE OF COMPLIANCE – PPW Declaration –

Nexperia B.V. certifies that the packaging materials of Nexperia's semiconductor products meet the requirements of the European Parliament and Council Directive 94/62/EC on packaging and packaging waste (PPW). This includes all primary packaging of individual sales units, secondary packaging for grouped sales units and tertiary packaging to facilitate handling and transport of a number of sales units.

Specifically, Nexperia's packaging materials meet the following essential requirements:

1. The packaging volume and weight is limited to the minimum adequate amount to maintain the necessary level of safety, hygiene, and acceptance for the packed product.
2. Packaging materials are selected to permit their reuse or recovery, including recycling, and to minimize its impact on the environment when packaging waste is disposed of.
3. The presence of noxious and other hazardous substances is minimized.
4. The sum of concentration levels of lead, cadmium, mercury, and hexavalent chromium do not exceed 100 ppm.

The signature below verifies that the above statements, including any product composition data, are valid and accurate to the best of our knowledge.
